EXPERIENCE

10/2022 to 11/2023

Data Analyst

Darpan vegetables — New York, NY

- Utilized accounting software, such as QuickBooks, to manage financial transactions and generate reports.
- Prepared financial statements, including income statements, balance sheets, and cash flow statements, for the vegetable business.
- Conducted detailed analysis of financial data to provide insights into revenue, expenses, and profitability.
- Developed and managed budgets for various departments within the vegetable business, ensuring alignment with organizational goals.
- Utilized forecasting techniques to predict future financial performance and identify potential risks and opportunities.
- Oversaw inventory management processes, including tracking purchases, sales, and stock levels of vegetables.
- Applied cost accounting principles to analyze the cost of production for different types of vegetables.

- Contributed to the development of financial plans and strategies to support the growth and expansion of the vegetable business.

05/2020 to 08/2022

Power BI Developer

Cognizant Technologies Solutions - India

- As a seasoned Power BI Developer, I have honed my skills in crafting robust business intelligence solutions that empower organizations with actionable insights. My responsibilities encompassed a diverse range of tasks, showcasing my proficiency in both technical and business aspects.
- Collaborated closely with business stakeholders to comprehend and document their unique data and reporting requirements.
- Conducted in-depth analyses of business processes, identifying key performance indicators (KPIs) and relevant data sources.
- Designed and developed intricate data models using Power BI Desktop, establishing crucial relationships between data tables.
- Applied ETL techniques, leveraging Power Query to extract, transform, and load data from diverse sources, ensuring data accuracy and consistency.
- Created visually engaging reports and dashboards within Power BI, employing various visualization techniques for effective data communication.
- Utilized DAX expressions to implement calculated columns, measures, and calculated tables for advanced data calculations.
- Maintained comprehensive documentation of data models, report specifications, and development processes for future reference.
- Collaborated seamlessly with cross-functional teams, fostering effective communication with data engineers, business analysts, and IT professionals.
- Provided end-user training and documentation, ensuring optimal utilization of reports and dashboards.

01/2020 to 04/2020

Intern

Congitus SAP Consulting — India

- Increased understanding of ERP industry processes by assisting with daily tasks.
- Used SAP software to keep detailed process notes on given task's.
- Increased training efficiency by working closely with supervisor and coworkers.
- Maintained high levels of efficiency during training by taking detailed notes and asking questions.

EDUCATION AND TRAINING

12/2023

Master of Science: Data Analytics and Visualization
Yeshiva University — New York, NY

CERTIFICATIONS

- **AWS cloud practitioner** - Apr 2023 - Apr 2026
- **AWS cloud architect associate** - Dec 2023 - Dec 2026
